A Message from Our President

Greetings All!!

Well, I think Spring is here, I've seen robins and daffodils and even some trees in full bloom. Sure am glad that it was an easy winter. I got in from work a few minutes ago, and like always the cats have been fed and are busy ignoring me. Fall is my favorite season, but if I had to pick another it would be spring. I like seeing things coming back from their dormant stage and adding color everywhere you look. I've been dormant too; I haven't been quilting in a while, and am slowly getting back into quilting, I went and bought fabric Thursday and Friday and Saturday last week, so I've got to get busy and use it.

The quilt show is coming up in a little over a year and two of the fabrics are for a quilt I'm thinking about making for it, will have to wait and see how it turns out(hopefully fabulous!) what I need to do is some spring cleaning but I'd rather read and quilt then do that. We'll have a great meeting on the 22nd and Beth Helfter is the speaker and will be doing a workshop the next morning. We are going to have a vendor that night: Becky's Rag Bag treasures will be there with all kinds of great things to purchase! Well better get busy and get some things done before I call it a night

March Speaker – Beth Helfter

“Eva Paige Trunk Show”

Beth learned from her mother to love creating beauty with needle and thread. Her motto is, “Fun over Fuss.” She has a lot to teach us, but this time she chose to introduce us to “Diagonal Quilt Blocks.” The workshop on Friday, March 23rd is about arranging & rearranging blocks to achieve the design featured below @ \$30 for the class. (@ \$5/hour!) Wow! Here is how she explains it:

“Diagonal quilt blocks = show stopping setting opportunities! We'll use the **Iced In** pattern to create some blocks, using our own and other quilters' fabrics, then play with them to create endless setting options to make those quilts sparkle. I often say when you buy a pattern, it's okay to change the fabric or setting to make it your own, so come challenge yourself to do just that! Pattern required.”

We have a few spots left for the March 23rd “Iced In” workshop presented by Beth Helfter. There is some cutting to do ahead of time, so call me ASAP [417-434-0329](tel:417-434-0329) and I'll get you on the list. The class is limited to 15 students, so we'll all have plenty of space and attention. The workshop will be from 9:30-3pm at Emmanuel Lutheran Church 2901 E Zion in Fayetteville and the cost is \$30 payable to QUILT. This will be our last workshop until July.

CUDDL Y QUILTS

An update for the newsletter on cuddly quilts: In the month of February, 20 quilts were taken to Arkansas Children's hospital and they were so grateful. They hand pick which quilt goes to which child. We have 15 quilts ready to go so far for March and another 10 or so that only lack labels.

Hospital staff asked us to consider donating some larger quilts for the bigger kids (young adults up to age 21 are treated at Children's)!

We are in need of some larger pieces of fabric for backing. We will plan on having a cutting party soon, so stay tuned!

Thanks!

Donna Murray, Joan Beyette, and Carrie Stolz, your Cuddly Quilt Coordinators

ITEM OF INTEREST/TIPS/TECHNIQUES

This is the fourth and last installment of the Color Wheels Basics Flash Cards.

<p></p> <p>Tint</p> <p>Any hue mixed with white. Hues that are tinted are low in saturation (the intensity of the color is dampened by white) and appear to be lighter in value. Most of the colors we call pastels are hues tinted with white. For instance, a light tint of green (think pastel mint), a light tint of blue (think baby blue) or a light tint of yellow (think butter yellow).</p>	<p>Tone</p> <p>Any hue mixed with gray. Hues that are toned with gray appear low in saturation (the intensity of the color is dampened by gray), and can be either lighter or darker in value depending on how much white is contained in the gray tone.</p>
<p>Value</p> <p>The lightness or darkness of a color, regardless of hue. In a color wheel yellow appears as hue with the lightest value, and violet appears as hue with the darkest value. It can be important to know the value of the fabrics you are working with, especially when making a quilt that calls for a mix of light, medium and dark hues. When determining the value of your fabrics, try looking through a green or red colored film to better determine the lightness or darkness, or take a picture with your mobile phone at the black and white setting.</p>	<p>Warm Colors</p> <p>Colors around a color wheel can be divided into two halves; warm and cool colors. Reds, oranges and yellows are described as warm, vibrant colors that pop out and grab your attention. They are vibrant, stimulating, motivating, and aggressive.</p> <p></p>

FEBRUARY WORKSHOP

Our February Speaker Dani Ives has progressed from Biology Major, to Zookeeper, to Wool Appliqué crafter and teacher, with animals & pets always at the forefront. Originally from Mountain Home, she and her husband now live in Rogers area. Her wool felting journey moved quickly from creating 3-D figurines to 2-D felting pictures. Her order of execution is, 1) Eyes, 2) Nose, 3) Front to Rear, 4) Top to Bottom. Her samples that night featured a variety of animals, i.e. dogs, cats, small animals, horses, flowers, bugs, etc.

Lila R. kindly showed us how her little bird grew and developed at the Workshop with Dani the next day. Now is she going to add borders, batting, binding?
